Winners in City's 'Best Ever' Parade Announced by Sponsors

The third annual Torrance Ranchero Days ended Sunday night after its most successful engagement.

Sponsoring Chamber officials said that funds to finance at least half of the cost of Torrance's float in the Tournament of Roses Parade were raised during the five day celebration.

Thirty-eight Torrance community organizations participated in the event under the general chairmanship of Jack Phillips, Lt. D. C. Cook was coordinator of the Saturday night parade and the two day rodeo.

OLD-TIME Torrance residents were almost unanimous in their opinion that the 1959 parade was the finest in the city's history. There were over 1200 participants in the "snappy" 1 1/2 hour parade which was for the first time, a twilight event. Chamber president J. H. Paget said the experiment of setting the parade back to a 6 p.m. starting time instead of the usual mid-morning time, seemed to be most satisfactory to both the participants and estimated 8000 spectators along the 2 1/2 mile route of march.

Lt. Cook reported that Torrance now boasts one of the three parades in the entire Southern California area that is invitational, and that this year some 31 majorette and marching groups and over 100 horse entries were refused permission to participate in this year's "stream-lined" parade. Last year's parade lasted over 3 1/2 hours and indications were that the 1959 event would have been longer had not the "weeding out" process been developed.

The Torrance Youth Baseball Council was awarded first prize in the float division for a beautiful and unique display of youth activities in baseball. Other winners in this division were the Torrance Welcome Wagon, Pilot Club, North Torrance Lions Club, and Ladies of the Elks.

completion of the bridge and following nine months as assistant foreman, structural steel fabricating works in Bethlehem, Pa., he was assigned in June 1954 as project engineer for Bethlehem's new fabricating works in Torrance. He was appointed assistant works manager of the works in January 1957.
